

Press release

Université PSL (Paris Sciences & Lettres) is organizing the 25th MSCA¹ conference on emerging challenges in European research.

Paris, May 12, 2022 As part of the French Presidency of the European Union, Education, Research and Innovation, is organizing the 25th MSCA conference, "MSCA 2022: Next Generation MSCA: Opening a New Era for C . This conference will take place on May 23 and 24 at the Institut Curie and ESPCI Paris-PSL, two venues closely linked to the memory of Marie Curie.

MSCA, a flagship of the Horizon Europe program

-Curie Actions) forms part of Horizon Europe, the 9th European Union framework program for research and innovation.

Geared specifically to doctoral and post-promoting their mobility between countries, sectors and disciplinary fields in the context of research projects and advanced training programs.

MSCA 2022, new challenges for the next 25 years

-Curie Actions program through a series of presentations and debates around doctoral training, international mobility for researchers and career advancement.

-Curie Actions provide funding for interdisciplinary research, international partnerships and public-private sector cooperation. The program lends its support not only to scientists in a European context, but throughout the world. Each conference focuses on specific aspects of the program, with a view to providing the European Commission with recommendations to ensure optimal conditions for researchers to carry out their work.

This 2022 edition marks a turning point in the history of MSCA, as it will provide an opportunity to consider how the program will support future generations of beneficiary researchers in the years to come. Throughout this two-day event, several issues will be explored, such as how to strengthen the relationship between science and society, how to raise awareness of gender equal[)]TÆTr53 165.6 Tm0 g0 G[seTm0 g0 G[.)]T70 g0 Gr(m)-3(0.0000081 04Qq0.0000081 0 Gu-67(an)3(
